

## Senior Management Bios

---

### **David Gray, C.A. CIRP**

President

David has more than 20 years of experience in corporate turnarounds and financial restructuring. A Chartered Accountant, he has practiced in the area of corporate restructuring since 1981. David was recently responsible for two major corporate restructurings with assets in excess of \$90 million and put together the team to purchase the exclusive rights to treat and sell BluWood in Canada.

David specializes in corporate finance, management buyouts and sale of businesses. His network of financial contacts, his experience and ability to “see the deal” makes David the ideal person to assist buyers and sellers completing win-win business transitions.

As the president, David’s leadership qualities have been instrumental in building a strong team. He brings creativity and commitment to his work, enabling him to lead his team and to generate optimal results.

### **Erwin Leonov, B.Sc.F.**

Vice President, Operations

Erwin has worked in a variety of senior roles in the forest products industry for more than 20 years. As a forest products engineer, he has been involved in many aspects of the industry - including plant operations, business, product, research and market development.

Erwin was the co-founder of CanFibre All-Green MDF, a manufacturing facility of urban waste wood fibre based medium density fibreboard (MDF) that has assets of in excess of US\$500 million. Erwin is also the co-founder of BioExx Extraction Technologies, which develops proprietary extraction technology to extract chemicals from plant and animal matter.

Erwin is responsible for shipping operations and supplier relations. His knowledge of the forestry industry, hands-on experience and network of contacts are important assets to the company’s new business activities

### **Linda Bowman-MacBrien**

Vice President, Administration

Linda Bowman-MacBrien has over twenty years experience in accountancy and is responsible for accounting and information systems as well as design and implementation of policies and procedures. In addition, she is responsible for overall inventory control and customer reporting procedures, a critical role in maintaining excellent relations with customers.

**Mark F. Foster**

Vice President, Sales and Marketing

Mark has worked the construction and wood industries for nearly 30 years, which includes 22 years with forestry leader Weyerhaeuser. Mark has extensive experience within all segments of the treated wood supply chain and works with clients to increase profitability by creatively taking costs out of the system.

Mark brings a unique perspective to his role and helps customers stay competitive and to grow in a changing market. Mark has a proven track record in implementing positive change and is continually developing strategies for long term and sustainable profitability. Mark understands the industry and market dynamics. For Mark, status quo is not an option; he continually takes on new challenges that benefit the company and its customers.
